	2002	2003
Turkey	69,302,000	70,231,000
8 provinces	13,660,528	13,865,920
percentage %	19.71%	19.74%

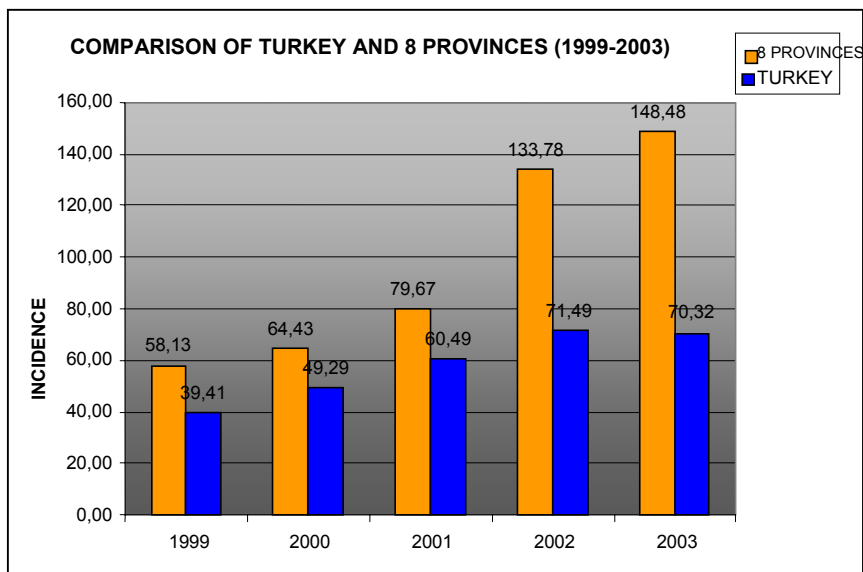

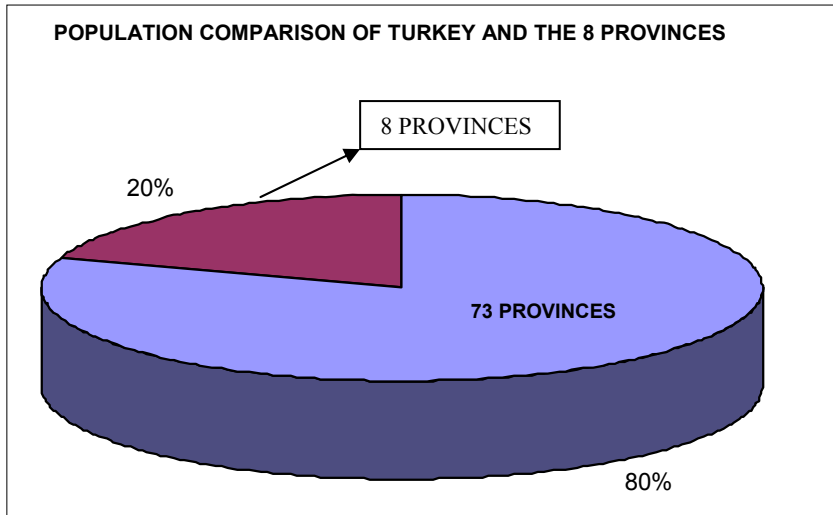

* **Population data for 2002-2003 are estimates by the Turkish Statistics Institution.**

COMPARISON OF NUMBER OF CASES IN TURKEY AND THE 8 PROVINCES

	2002		2003	
	Number of cases	%	Number of cases	%
Turkey	49547	100	49387	100
Cases reported in 8 provinces	29552	59.64	29564	59.86
Resident cases in 8 provinces	18275	36.88	20588	41.68

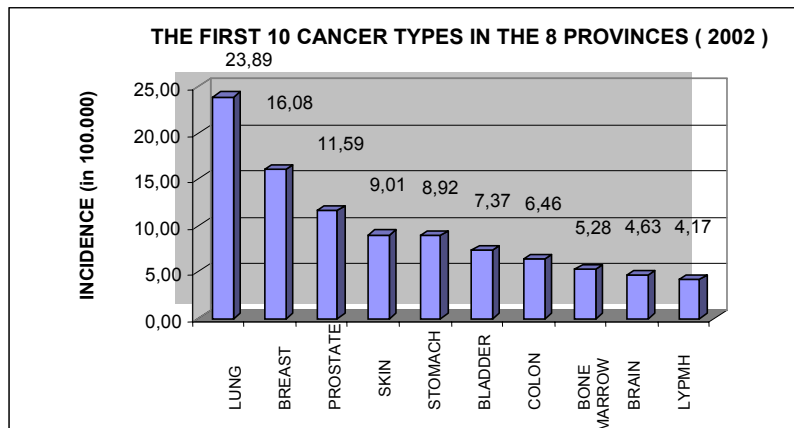

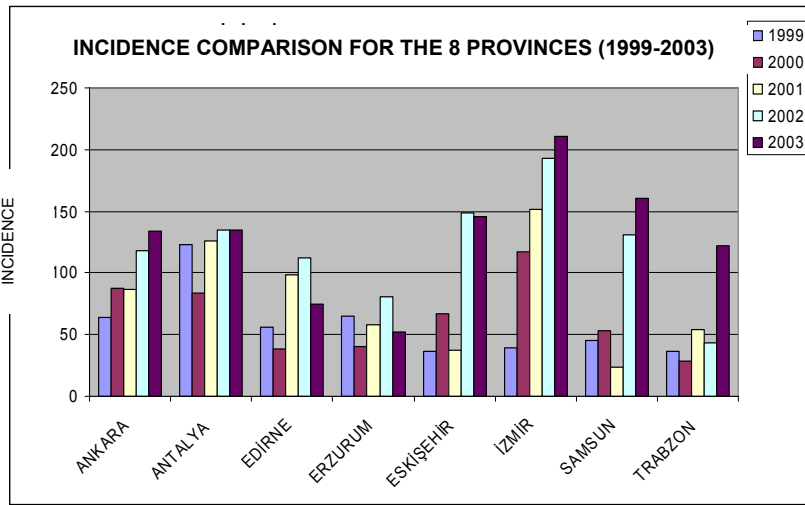

These 8 provinces represent 20% of the Turkish population and the data obtained from these provinces make 60% of all the data. Other cancer cases are those reported by the Cancer Registry Center of the 73 provinces (40%).

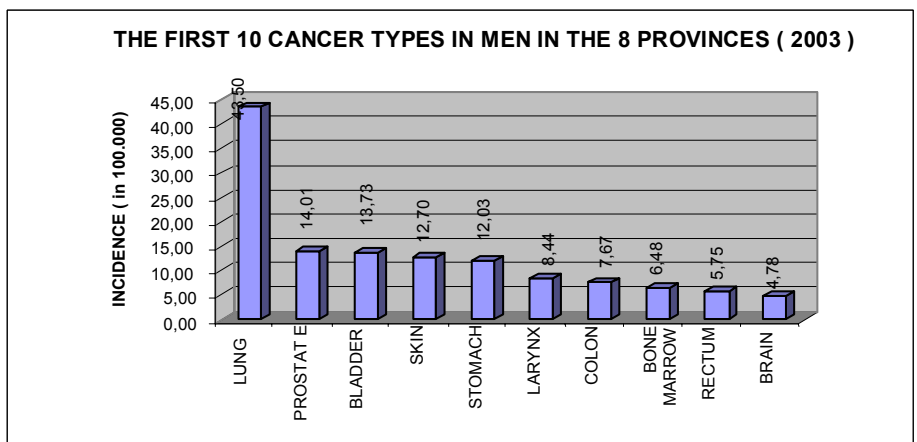

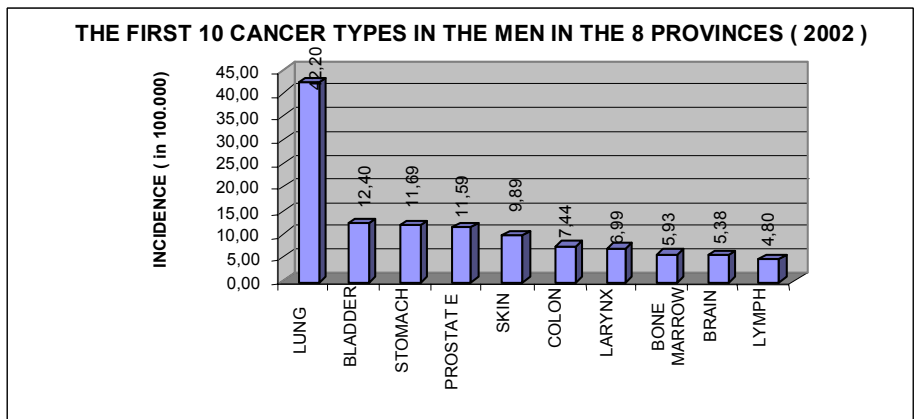

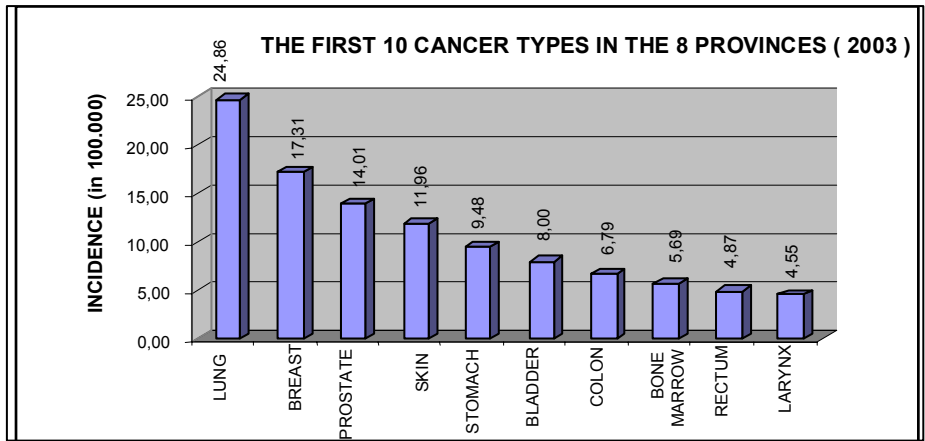

Of all the cancer case reports 36.88% in 2002 and 41.68% in 2003 are residents of these 8 provinces. Of these patients, who are residents of these 8 provinces, 181 in 2002 (0.99%), 182 in 2003 (0.88%) were diagnosed in hospitals in provinces other than these 8.
